County Board Pays Respect To Rogers

A resolution of sympathy in the death of the late Dwight L. Rogers, U. S. Congressman from Florida's sixth district was adopted by the County Commission this week. The late Congressman, a member of the House of Representatives since 1945, died December 1 at his home town of Fort Lauderdale.

The commission's resolution called attention to Rogers' outstanding career as a member of the State Legislature and founder of the now famous Homestead Exemption Act. Rogers also gained considerable fame in Congress for his promotion of an act which won terminal leave for servicemen in World War 2.

The resolution termed Rogers as "a staunch advocate of free enterprise" and a man who never failed to lend his utmost cooperation to the county commission. Before adoption of the resolution offered by Commissioner Paul Rardin of Canal Point, the Glades commissioner asked that the board stand in a moment of silent tribute to the deceased Congressman.

An election to fill the vacancy caused by the death of Congressman Rogers has been set for January 11. First to file his candidacy for the post was Paul Rogers, West Palm Beach Attorney and son of the late Dwight Rogers.

Williamson, at the quarterly Court of Honor of the Glades District of the Gulf Stream Council, BSA, held in the South Bay School auditorium Thursday night.

The meaning of the Eagle award was explained by Victor E. Green, Jr., district advancement chairman, to an audience of 160 scouts, parents and friends. Henry L. Spelman, III, district commissioner, told of the rigid requirements necessary to attain the Eagle award, pointing out that not only must a scout earn 21 merit badges, several of which are compulsory such as swimming, lifesaving, first aid, camping and cooking, but he must also be active in the troop, the community, the church and the school.

Leroy Hight of West Palm Beach, field executive of the Gulfstream Council, was in charge of the presentation ceremony. He read a poem, "The Eagle Scout," and a letter of congratulations to Kenny from Arthur A. Schuck, chief scout executive of the National Council, New Brunswick, N. J. Kenny's (continued on page 8)

Rardin said the 8.2 mile project which provides for a new shell rock base and new surface for the road, is being done by the Brinson Construction Company at a cost of \$242,000.

Rogers Plans For Intensive Campaign

Plans for an intensive campaign for the office of U. S. Congressman from Florida's Sixth District, were being mapped this week by Paul Rogers, who is seeking to succeed his father in that office.

Rogers, a West Palm Beach attorney, was first to file his candidacy with Secretary of State R. A. Gray.

He said a tour of the 10-county district has shown most of the Democratic party to be in favor of his candidacy and that many of the party leaders in the district had pledged their active support of his candidacy.

The general election for the office has been set for January 11 in the district which includes Broward, Palm Beach, Martin, St. Lucie, Indian River, Hendry, Okeechobee, Glades, Charlotte, Lee and Collier counties.

Rogers said he will tour the entire area on his campaign and will take every opportunity to urge the voters to take part in the coming election.

The importance of getting out a good vote cannot be overlooked in any campaign he said, since the privilege of casting a ballot is one of the citizen's most cherished rights.

Cinematic Chatter

By Malcolm Millar

Hello 'everybody! Mercedes McCambridge is beginning to suspect that her Oscar is a villain. The talented Miss Cambridge won the Academy Award for the best supporting actress in her very first picture. It was "All the Kings Men", and no one who saw it ever forgot the dynamic performance of the then unknown girl gave as the rough, tough Sadie Burke, mistress and altar ego of a power-crazy politician. She was a thoroughly unpleasant character. Ordinarily, an Oscar winner is immediately swamped with offers from studios and independent producers anxious to cash in on the player's prestige. But not so with Mercedes. She has made less than a half dozen pictures since the memorable night she was presented with the much-desired trophy. There is an explanation for this. In the first place,

Mercedes Academy Award winning performance in "All the Kings Men" was so impressive that it was difficult to visualize her in a sympathetic role. In the second place, very few feminine "heavy" parts considered worthy of an Oscar winner, materialized. In the third place, having established herself as a high-ranking player, Mercedes could not accept less-important roles. This has been a matter of personal annoyance to Miss Cambridge. She would welcome a chance to show Hollywood how good she could be as a nice girl on the screen. And she doesn't want anyone thinking that her acting talent has limitations. Mercedes admits that she is not complaining. "I guess I'm like the comic who always wants to play Hamlet," she explains. "If I ever played one of those gooey, sweet young things I'd probably give my right eye to be a 'heavy' again. Don't forget that Christmas shopping and I'll see you at the movies—Mal.

O. B. McClure Reports On Rotary Conference

Ratigan, Miami; Ralph Kidder, Jack Munroe, Charles Baker, Luther Jones, Buster Willis and N. T. Taylor, all of Belle Glade.

SICK FOLKS ARE ON THE MEND IN THE EVERGLADES

Many folks in the Pahokee-Canal Point section have been on the sick list but this week several of them are better. John Dragon will be brought home from St. Mary's hospital in West Palm Beach following a serious stomach attack last week. He is better.

Joe Clements, pastor of the Canal Point Baptist church, is in Pahokee hospital and is in not too good condition.

Arthur Larrimore returned Saturday from Tallahassee where he took a four-day course of study for Florida State Employment Service managers held at Florida State University. Mr. Larrimore is manager of the Glades office of the FSES.

A company doesn't just happen to live for 75 years. Usually some one factor, more than others, makes it possible. In the case of Southern Bell, the magic ingredient has been the public's acceptance of good and growing telephone service furnished at the lowest possible cost.

Chartered on December 20, 1879, with 1,246 telephones, Southern Bell was formed by men of foresight, with faith in the South's future. Their faith was borne out, and the Company grew to 26,396 telephones by 1900.

Since World War II, telephone progress in the South has broken all records: From 1,863,000 telephones at the end of 1945 to over 4,500,000 today, while Long Distance circuits have more than doubled. Such remarkable scientific developments as the transistor, microwave radio-relay and direct operator dialing of Long Distance calls have opened exciting new vistas of service.

In the years ahead, the men and women of Southern Bell pledge to keep on furnishing the best possible telephone service at the lowest possible cost. On this, our 75th Anniversary, we express our appreciation for the opportunity of serving you.

From where I sit... by Joe Marsh

Guess It's Called a Safety "Drive"

Whitey Fisher, from the State Motor Vehicle Department, dropped by to discuss some of our local traffic problems.

"Up at Center Junction," Whitey says, "they've got a new sign that really slows down the traffic going through town."

"The sign says, 'At 25 miles an hour, you can drive through Center Junction in 2 1/2 minutes!' It slows people down too—some just fake it easy to check on that 2 1/2 minutes, I guess. Hasn't even been a dated fender since that sign went up."

From where I sit, it wasn't what the sign said, but the way it was said. People are really pretty understanding if they understand what you mean. It's the same way with differences of opinion. Perhaps your neighbor prefers a temperate glass of beer, and you would choose buttermilk. What I'd like to see is for all of us to "slow down," talk it out, and be respectful of our neighbor's rights.

Joe Marsh

It Is Unlawful For Any Person Or Persons To Engage In Business Under A Fictitious Name Unless The Name Is Registered

The fictitious name statute was recently changed by the 1951 Legislature and the News has the necessary forms for proper registration and advertising.

The charge for advertising the notice the necessary four times is \$15.

As amended by the 1951 session, the law reads as follows:

"It shall be unlawful for any person or persons, as defined herein, to engage in business as herein defined, under a fictitious name as herein defined, without and unless said fictitious name shall be registered with the clerk of the circuit court of the county where the principal place of business is, which registration shall consist of filing with the clerk aforesaid an affidavit signed by all interested persons, stating under oath the names of all those interested in the business enterprise, the extent of the interest of each, and the fictitious name under which said business is carried on. Said registration may not be made until the person or persons desiring to engage in business under a fictitious name shall have advertised his or their intention to register said fictitious name at least once a week for four (4) consecutive weeks in some newspaper as defined by law in the county where said registration is to be made, and said registration shall not be accepted by the clerk of the circuit court except upon receiving proof of such publication."

Christian Science Group Of Canal Point

"Is the Universe, Including Man, Evolved by Atomic Force?" is the subject of the Lesson-Sermon to be read at Christian Science services Sunday.

Man's God-given dominion over materialism, including the so-called laws of chance and misfortune, is brought out in the readings from the Bible, among which is the account of Paul's restoration of Eutychus, the young man who "fell down from the third loft and was taken up dead" (Acts 20).

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (424:5): "Accidents are unknown to God, or immortal Mind, and we must leave the mortal basis of belief and unite with the one Mind, in order to change the notion of chance to the proper sense of God's unerring direction and thus bring out harmony."

Would Have Permits Expire On Birthday

The county commission this week made plans to promote a legislative act that will have every motorists driving permit expire on his birthday instead of having all permits expire on October 1.

The idea was suggested by Commission Chairman Lake Loyal in the interest of saving money and attempting to avoid long lines of motorists trying to buy permits in jammed office space.

Many states, Loyal said, already have laws which set the driver's birthday as the expiration date for driving licenses.

The commission planned a conference with County Judge Richard Robbins, who sells the permits, and with the county legislative delegation to discuss the proposed state law.

County Commissioner Paul Rardin, chairman of the State Association of County Commissioners legislative committee, said if the proposal won favor with the county officials here, he would take the idea to his state committee which meets after the first of the year.
